

Puppy Socialisation Classes

Socialisation is simply allowing your puppy to experience strange situations, people and other animals so that they aren't scared of them in the future.

When a puppy isn't socialised correctly between the ages of 3 to 17 weeks, it can lead to fear and aggression problems in later life. However, it is extremely important that socialisation continues for the first 18 months of your dog's life.

If you want a happy, friendly dog that you can take anywhere and meet anyone, attending Swinton Dogs Puppy Socialisation classes are a must.

These classes are designed for puppies aged between 10 and 14-15 weeks.

The number of weeks your puppy will attend this class depends on its age when joining the group. Your pup only needs to have received its first injection from their vaccination course as the classes are held in a hall that only the pups that attend the class use.

The class is held between **7pm - 8pm on a Wednesday evening** at:

Fletcher Hall, Vicarage Road, Swinton, M27 0WA

Please check the price list on our website for the latest cost.

Puppies are introduced to basic obedience and allowed to socialise under controlled conditions with other puppies and people. Our trainers give owners lots of hints and tips to get the best from their puppies and the class allows you to share experiences with other new puppy owners.

The nature of the class means you will spend some time either kneeling or sitting on the floor completing handling exercises therefore comfortable clothing is necessary. Two people are invited to attend for each puppy.

To book a place in the class please contact me via email or telephone.

The socialisation classes are pre-registered to avoid potential overcrowding, please contact us directly to register on 07932 761042 or via info@swintondogtraining.co.uk.
